

# Tyrrell County CTP Committee Meeting

---

**July 25, 2011 - 2pm**

**Tyrrell County Administrative Office**

108 S. Water St.  
Columbia, NC 27925  
252-796-1371

## **Attendees:**

Lauren Nicholls  
Steven Lambert  
F. Michael Griffin  
Rhett White

Scott Walston  
W. Mack Carawan, Jr.  
J. Fred Swain

## **A. SURVEYS**

The committee reviewed the survey results. A total of 69 responses were received. The biggest concerns addressed by the public were safety, care for special needs citizens, and economic growth. Specific issues considered most important to the public included finishing US 64, public transportation, and road maintenance.

## **B. MAPS**

The committee reviewed the 2035 Volume and Roadway Deficiencies Map. US 64 past Columbia is the only road in Tyrrell County that is expected to near capacity in 2035. Next, the crash locations map was reviewed which located intersections with more than 10 crashes and a severity index greater than the state's 4.56 average. Intersection US 64/NC 94 was the only intersection with a high crash rate (12 crashes; 9.17 severity index). Lastly, the Deficient Bridges map was reviewed which located bridges considered to be structurally deficient and/or functionally obsolete. A note was made that bridge number 17 is not along Crosslanding Rd but instead Rider's Creek Rd.

## **C. OTHER NOTES**

Other notes mentioned by the committee:

- L.A. Keiser sidewalk is already funded.
- One of the main issues is the flooding on Main St.
- There is flooding at the intersection of Main St. and Road St.
- The county has a plan to finish downtown enhancements.

#### **D. NEXT MEETING**

Next meeting we will be discussing recommendations. This meeting will be held on August 22, 2011 at 2:00 pm at **Town Hall**.

#### **E. ADJOURN**
